

Capacitor Anwendung

The diagram illustrates the architecture of a Capacitor application. It consists of three main layers stacked vertically. The top layer is a white rectangle with a black border, labeled 'Capacitor Anwendung'. This layer is enclosed within a larger, light orange rectangular container. Below this container is a thick, solid blue rectangle labeled 'Capacitor-BrowserView Plugin'. At the bottom is a rectangle with a red border and a diagonal hatching pattern, labeled 'WebView'. A double-headed vertical arrow connects the bottom of the 'Capacitor Anwendung' layer to the top of the 'Capacitor-BrowserView Plugin' layer. Another double-headed vertical arrow connects the bottom of the 'Capacitor-BrowserView Plugin' layer to the top of the 'WebView' layer.
